

Legal Affairs System (LAS)

LAS was designed by MIS locally to meet the requirements the requirements of Legal Departments at any Investment or Banking institution. The system is based on Oracle State-of-the Art tools Designer and Developer 2000. It is fully bilingual and Graphical User Interface (GUI). The system can be also integrated with other modules from MIS i.e. General Ledger, Security, and Personnel and Payroll Modules.

General Features:

LAS mainly covers the following sections:

- 1-Client / Sponsors Information
- 2-Court Cases Information

Client / Sponsors Information:

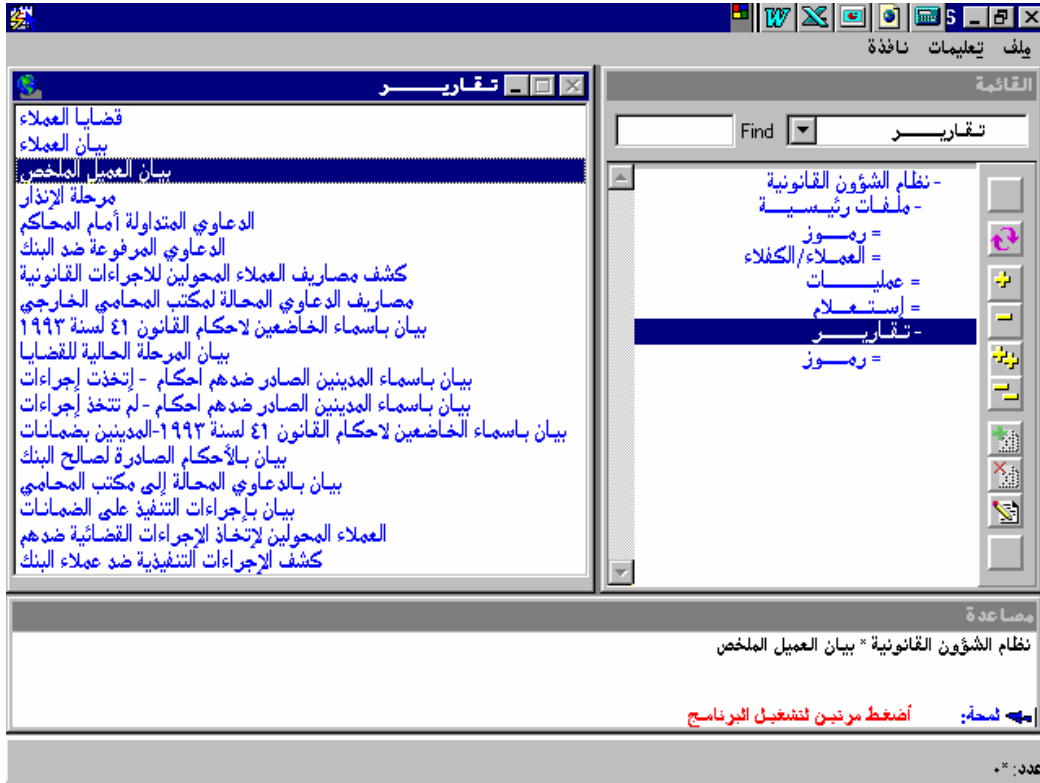

LAS handles details of Client data like Name, Number, Title, Phone, Address etc..
LAS also handles Client Account Number, Account Type, Branch, Bank Facilities, Settlements and Case Types.

Court Cases Information:

LAS handles details of Court Cases information like Court Type, File No., Decision Description, Decision Date, Formal and Informal warnings, Case Stage, Expense Details, Settlements and Executions.

Moreover, LAS handles sub-details of the above i.e. Formal Warning details are Client Name, Number, Notification Date, Publication Date etc...

Finally LAS has an extensive list of inquiries and reports.
